Dear Mr. Gannon,

We are residents of Chatham County, living near Bynum and about 1 mile from the Haw River. We are writing to strongly urge you to support the proposed new rules to clean up Jordan Lake. We have watched as increasing development, population pressure, greater traffic, greater air pollution and loss of forests have degraded the health of the Haw River and Jordan Lake--the principal sources of water for most of Chatham County, Cary, and other areas. There are few things more important than clean water--life depends on it! We need to move now to clean up and protect all our waters. Average citizens depend upon the State to do the right thing and protect the public health. This is one of those times where the State needs to do the right thing!

Thank you for your concern!
